PerfikDek Premium Wood Deck & Railing System

Most of us enjoy the beauty and warmth of natural wood, but when it comes to our outdoor deck, wood is nothing more than a constant maintenance hassle. Long ago the Vikings learned to overcome this problem by treating the wood with fire, which in turn made it more resistant to the weather.

The modern version of this ancient process is called EcoPrem™. Today we use a combination of heat and steam to modify natural wood. This modification creates a decay, rot, insect and mold resistant wood. This patented process turns natural wood into a low maintenance, weather resistant product.

EcoVantage takes their EcoPrem Premium Wood material, shapes and cuts it into PerfikDek components. Creating one of the most exciting and beautiful deck systems in the market.

Key Features of PerfikDeck

- Light Weight
- High Strength
- Sustainable Material
- Zero Toxicity
- Dimensionally Stable
- Outdoor Durability
- Long Term Warranty

PerfikDek Decking comes in a variety of styles and shapes

STANDARD DECKING

PerfikDek standard decking comes in 1-1/4" thick x 5", 6-3/4", and 8-1/2" wide boards

CROWN DECKING

PerfikDek crowned decking comes in 1-1/4" thick x 5" wide boards.

GROOVED DECKING

Both the standard and crowned deck boards come in the "new" grooved style which accommodates the PerfikDek Clip System

RAILING COMPONENTS

A wide variety of railing components have been developed to provide the greatest amount of design flexibility possible. Many of the railing components have been designed to provide faster installation time.

FULL SYSTEM

By adding the StayTru™ structural products to your decking project you will not only get our warranty coverage on the deck and railing, but also for the structure of the deck. 30 Year Material Warranty for everything from the ground up!

**30 Year
Limited Material
Warranty is
available for all
